

HOW TO ACTIVATE MMS PRODUCTS

STEP-BY-STEP MANUAL TO ACTIVATE YOUR PRODUCTS IN HELPDESK:

- **SELECT PRODUCTS ACTIVATION:**

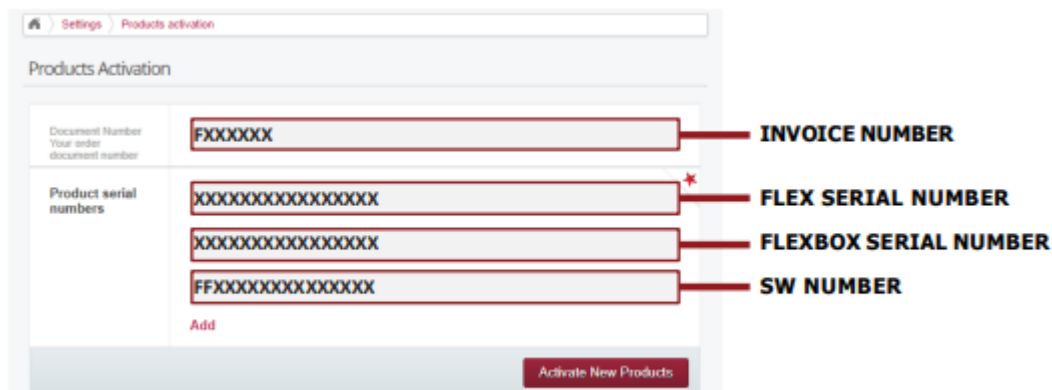

The screenshot shows the Magic Motorsport Helpdesk interface. On the left is a sidebar with navigation links: News, Tickets, Services, Online Support, Forums, Databases, and Settings. The main content area shows a user logged in as 'selected user'. In the top right corner, there is a navigation bar with links: Tutorial, Products activation, Account, and Sign out. A red arrow points to the 'Products activation' link.

- **CLICK ON ACTIVATE NEW PRODUCTS:**

The screenshot shows the Magic Motorsport Helpdesk interface with the 'Products activation' page selected. The top navigation bar shows 'Settings' and 'Products activation'. Below the navigation bar, there is a section titled 'Activated products' with a table listing products. A red arrow points to the 'Activate new product' button.

Product	Serial No	Activated at	Valid until
FLX1.1	5F6B78FEB6527393		
FLX1.1	5F897B849EC10A14		
FLX1.1	5F8BDF9342D84517		
FLX1.1	5FB8CD10BF887CF2A		

- **FILL THE FORM:**

The screenshot shows a web interface for 'Products Activation'. It contains a table with two main sections: 'Document Number' and 'Product serial numbers'. The 'Document Number' section has a single input field labeled 'FXXXXXX' with a red arrow pointing to the label 'INVOICE NUMBER'. The 'Product serial numbers' section has three input fields: the first is labeled 'XXXXXXXXXXXXXXXXXX' with a red arrow pointing to 'FLEX SERIAL NUMBER' (which has a red asterisk next to it); the second is labeled 'XXXXXXXXXXXXXXXXXX' with a red arrow pointing to 'FLEXBOX SERIAL NUMBER'; and the third is labeled 'FFXXXXXXXXXXXXXXXX' with a red arrow pointing to 'SW NUMBER'. Below these fields is an 'Add' link and an 'Activate New Products' button.

!ATTENTION!

You have a maximum of 3 attempts for each serial number. If you do not enter the serial number correctly after all these attempts, your Helpdesk account will be blocked. This is a security measure implemented to prevent any type of computer attack or hacking of our system.
